

CELLULAR PVC RAIL SYSTEM

At PEAK we believe Simple is Better. We use less parts and provide products that are easy to install. Providing a product that is maintenance free. Unlike Polyurethane, you don't need to paint. Unlike traditional vinyl railing, you can paint it. The best features are due to the coextruded aluminum and cellular PVC composition. This means you can paint it any color providing your customer with a product that is highly adaptable.

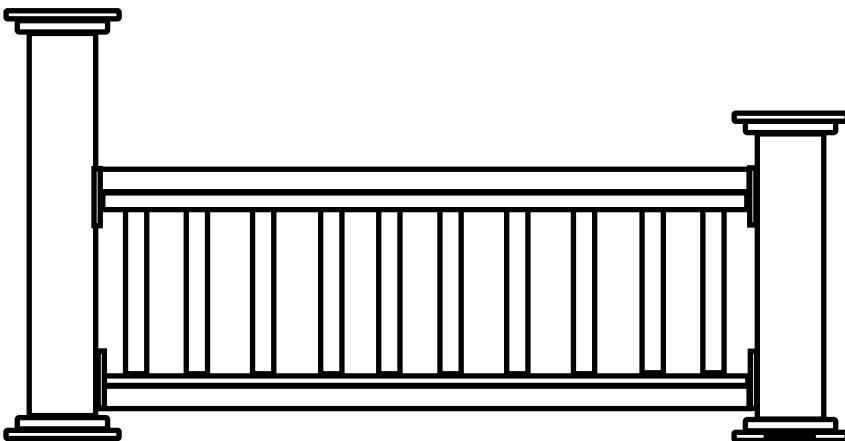

STRUCTURAL

6' AND 8' LENGTHS
36" AND 42" HEIGHTS
QUICK INSTALLATION

ASSEMBLY

We've kept assembly of the handrail simple. With only 5 components your customers save time and money with faster assembly and installation. Balusters, Top Rail, Bottom Rail, U-Channel, and Sub Rail. Screws are provided.

INSTALLATION

Installation will be smooth, easy, and fast. The brackets screw directly into the rail. Simple and fast installation. You'll have your PEAK Cellular PVC Hand-rail installed in no time at all.

CELLULAR PVC RAIL SYSTEM
